Reporting

Pre-test Questionnaire

1. When you go to a conference, job fair, convention, hackathon, how often are you trying to locate a person of interest?

2. How do you go about looking for this person, or how would you go about looking for this person?

3. Do you have any experience with apps that allow you to find people of interest (find my friends, etc.)? If so, how is your experience (regular use vs used it once, helpful or not helpful)

4. If you had to look for someone but could not call them, how would you proceed to look for them?

After each task has been read to the test subject, pay attention to their behaviour and fill in the following data collection sheet.

Task #1 (Pair Blue Beacon, rename it to Android Mentor Bob)

Observations
Describe the actions the user is taking while trying to accomplish the task.

User Comments
If the user makes any comments or asks any questions, make note of them here.

Questions
Did the user attempt to rename the beacon within 10 seconds after pairing it?

Task #2 (See if the user can verbally confirm how far away the android mentor is from him)

Observations
Describe the actions the user is taking while trying to accomplish the task.

User Comments
If the user makes any comments or asks any questions, make note of them here.

Questions
Did the user get side-tracked on the way to tracking the person of interest?

Post-test Questionnaire

1. Generally, how do you find your encounters with the system, on a scale of 1 to 6, where 1 is not useful at all and 6 is very useful? _____

2. If you were to get face to face with the Android mentor, what would you do?

3. What are your suggestions for improving the system? Is there a feature you wished you had access to?

4. What did you like the most about the system?

5. What did you like the least about the system?
